

Thousands of Stock Components

Qosina, a leading global supplier of OEM single-use components to the medical and bioprocess industries, is pleased to announce the expansion of its partnership with the Bioprocess Solutions business unit of Saint-Gobain, a world-renowned manufacturer of high-performance tubing and polymer solutions. This new distribution agreement allows Qosina to significantly enhance its product portfolio to better support its customers' evolving needs.

As part of this expanded relationship, Qosina has onboarded 38 new tubing SKUs, bringing the total number of Saint-Gobain-manufactured products in its portfolio to 114. These additions include some of the industry's most trusted tubing brands:

- C-Flex® 082 Tubing
- C-Flex® Braided Tubing
- PharmaPure® Tubing
- Sani-Tech® SHT®-C Tubing
- Sani-Tech® SHT®-R Tubing
- Sani-Tech® SHT®-R-HD Tubing
- Tygon® 2475 Tubing

“We’re proud to expand our relationship with Saint-Gobain and bring even more of their trusted products to our customers,” said Lee Pochter, CEO of Qosina. “This enhanced distribution partnership supports our commitment to delivering a comprehensive selection of components that are available off-the-shelf and ready to ship—helping our customers streamline sourcing and move from concept to production faster.”

“This expanded distribution partnership with Qosina will increase the visibility and accessibility of Saint-Gobain’s high-performance tubing products and brands within the bioprocessing industry,” said Arnaud Vioules, Global Sales Director of BPS Fluid Transfer Technologies. “By leveraging Qosina’s established global customer base and streamlined logistics, Saint-Gobain can better serve end-users with off-the-shelf availability.”

The new tubing is now available from Qosina, complete with specifications, technical documents and ordering details at <https://bit.ly/pr-saintgobaintubing>.

About Qosina
